

Press Release

Austria becomes official partner country of BIM World MUNICH 2023

Munich, July 31, 2023. BIM World MUNICH welcomes Austria as this year's official partner country.

For many years, numerous visitors and exhibitors from the neighboring country have already been represented in Munich. With internationally leading construction companies, planners, civil engineers and architects, Austria is an ideal partner for BIM World MUNICH. Especially in digitalization, modular construction, especially with wood, and infrastructure projects, the country takes a leading role in international comparison.

State representatives will officially open BIM World MUNICH on the morning of the first day and conclude the first day with a networking reception. Accompanied by the Austrian Chamber of Civil Engineers, the partnership with buildingSMART AUSTRIA will be communicated through all important channels.

The association will curate topics for the congress and exhibition visitors to present the best of its country. The topics will range from infrastructure projects, using the airport as an example, to hospital projects implemented in BIM throughout, the use of digital construction submission and approval processes in administration, and innovative forms of timber and modular construction.

Visitors can follow these and many other outstanding projects from the industry from November 28 – 29, 2023 at the ICM – International Congress Center Messe München. The preliminary program will be published in August. Tickets are available at www.bim-world.de/registration.

About BIM World MUNICH:

BIM World MUNICH is the trendsetter and leading networking platform in D-A-CH for national and international players in the digitalization of the construction, real estate and facility management industry. The annual event in Munich consists of a 2-day international congress on eight stages and a trade fair with integrated open forums, as well as the BIM Town Innovation Area with pitch sessions and the presentation of the Smart Building/Smart Construction Innovation World Cup® Awards. With over 8,000 key players in the industry, as well as numerous innovative start-ups and over 250 speakers, BIM World MUNICH brings together the entire BIM ecosystem and is THE meeting place for all industry players involved. The 7th BIM World MUNICH 2023 will take place from 28-29 November 2023 at the ICM - International Congress Center Messe München. More information at www.bim-world.de
