

BIM World MUNICH – the leading event for the digital construction and real estate industry is heading into its 9th edition

Munich, 14 August 2025. On November 26 and 27, 2025, BIM World MUNICH will take place for the ninth time at the ICM – International Congress Center Messe München. With over 200 exhibitors, around 8,000 professional visitors, and a diverse conference program, the event will once again demonstrate why it is one of the most important platforms for digital innovations in the construction, real estate, and facility management industries.

Insights into Best Practices at the BIM World MUNICH Congress

On the four main congress stages, visitors can expect an interesting program featuring practical presentations and high-profile keynotes. A particular highlight will be the thematic panel discussions, including BIM4Circular, BIM4FM, BIM4RealEstate, BIM4Machines, and BIM4Infrastructure. A key program element will be the presentations by Executive Partners such as ACCA Software, Autodesk, Bavarian State Ministry of Housing, Building and Transport, buildingSMART Germany, Gstarsoft, Mo|u|Se, Nemetschek Group, NOVA Building IT, Oracle Germany, revizto, and Würth, who will share their perspectives on standardization, efficiency, and sustainability in the construction and real estate industry.

Spotlight on Innovation

On November 26, as part of BIM World MUNICH, the “BIM-Preis Bayern” will be presented – organized in cooperation with the Bavarian State Ministry for Housing, Construction and Transport. The award honors projects that, using Building Information Modeling, provide significant impetus for planning reliability, sustainability, and digital collaboration.

Start-ups will also have their moment to shine: In addition to the dedicated exhibition area, the BIM Town Innovation Area, where they can showcase their products, young companies can pitch their innovative solutions during the [Smart Building / Smart Construction Innovation World Cup®](#). The grand finale, featuring live pitches and an award ceremony, will take place on November 27 directly at BIM World MUNICH in front of an international professional audience.

Focus on Digital Building Management at CAFMWORLD

As a satellite event, [CAFMWORLD](#) will once again be part of BIM World MUNICH. In cooperation with gefma, German association for facility management, and CAFM RING e.V., the association for digitalization in real estate operations, CAFMWORLD highlights current developments in building operations – particularly the role of digital systems such as CAFM software, building operating systems (BOS) and AI-supported solutions for the efficient and sustainable use of real estate.

Partner Country Czech Republic

BIM World MUNICH is pleased to welcome the Czech Republic as the official partner country this year. This partnership recognizes our neighbour's strong commitment to the digitalization of the construction and real estate industry. The Czech Republic has politically embedded the use of Building Information Modeling (BIM) and is pursuing ambitious goals to make planning, construction, and operational processes future-proof, efficient, and sustainable.

Comprehensive overview of the latest developments, technologies and trends, from initial planning to sustainable operation

Christian Stammel, Managing Director of RM Rudolf Müller Events GmbH and founder of BIM World MUNICH, summarizes: “BIM World MUNICH has long been more than just a trade fair; it is a unique industry network and a reflection of a transforming sector. It brings together everyone who actively shapes the digital transformation of the built environment. We are already looking forward to the 9th BIM World MUNICH 2025 with our partners, exhibitors, and all visitors.”

About BIM World MUNICH

Since 2016, BIM World MUNICH has been the international platform for all players in the digitalization of the construction, real estate and facility management industries. The annual event in Munich consists of a two-day international congress on four stages and a trade fair with integrated open forums, as well as the BIM Town Innovation Area with pitch sessions and the presentation of the Smart Building/Smart Construction Innovation World Cup® Award. With over 8,000 key players in the industry, as well as numerous innovative start-ups and over 250 speakers, BIM World MUNICH brings together the entire BIM ecosystem and is THE meeting place for all industry players involved. The 9th BIM World MUNICH will take place on November 26 and 27, 2025 at the ICM – International Congress Center Messe München.
